

Dream: an aspiration, idea or something greatly desired.
Goal: the goal is the intention of an activity or a plan.
Realistic: showing a sensible idea of what can be achieved.
Unrealistic: having ideas or hopes that are too big, silly, or not based on what's actually possible.

- What is my dream future?
- What work could I do to fund it?
- How is this different for young people living in others parts of the world?
- What can we do to support them to achieve their dreams and goals?
