

|                     |                                                                          |
|---------------------|--------------------------------------------------------------------------|
| entitled            | having a right to something                                              |
| fundamental         | necessary and important                                                  |
| psychological needs | most basic needs required for human survival (food, water, shelter etc.) |
| self-actualization  | to realise and fulfill your true potential and talents                   |

- For a child to be able to fulfil their potential, what other things need to be in place?
- What is the main difference between rights and responsibilities?
- How do the British Values link to Universal Rights?
- What is 'following rules' an example of?
- How might 'unmet needs' affect a child?
- What are some 'rights' of the child and what are some 'wants'?
